

MINI EPISODES: ANNA & AWASHIMA AT THE POOL

TRANSLATION: NARU-KUN / K-PROJECT WORLD

Anna undressed that day with determination. Taking off everything from the jacket to the skirt and underwear, to the point where you can't keep up, she gently extends her white hand. She was reborn as a completely different being.

She takes her swimsuit.

It is her favorite swimsuit with a red fire pattern drawn on a white background. When she changed her clothes, she carefully removed all of her clothes and put them in the locker, then stood in front of the mirror and tucked her long hair into the bathing cap with some difficulty.

In the end, she keeps his fists clenched and gets excited.

She got wet with a shower a bit away from the dressing room and was motivated when she stood by the pool.

Today she can swim the target distance.

Originally, Anna was not a bad swimmer. Water is not scary. However, since there was little need to swim long distances, more than 25 meters was an obstacle.

There was a reason why she came to the public pool and started swimming long distance.

Two weeks later, it was decided to go to sea with Homra's members. And the beach, which was the destination, sold float-shaped playground equipment that floated in the sea.

A large trampoline, slide and trampoline are combined so that adults and children can enjoy it.

Yata and Kamamoto naturally signed up, and Anna wants to follow them. However, it requires that she can swim more than 25 meters. So she came to the public pool to extend her swimming distance.

It was relatively empty today.

Go down to the end of the shore and try to crawl first. Anna on land can move calmly and flexibly like a cat, but when she enters the water she becomes uncomfortable.

Limb movements fluctuate and the water jumps wastefully, and despair can be glimpsed as she lift her face from the surface of the water to breathe. Finally, without controlling herself, she collided with a person who was preparing to swim in a different course.

That soft and gentle person stopped Anna.

"Oh, I'm sorry."

When Anna woke up a little, the other person smiled and said:

"Swimming practice? Awesome."

She was Seri Awashima, lieutenant of Scepter 4.

Anna looked at Awashima and thought:

(Big.)

That was her first impression.

To be honest, Awashima and Anna have had very few conversations. But somehow, they moved into the pool and talked a little.

"Do you come often?"

Awashima asked Anna, who shook her head and briefly explained the situation.

She tells her that she wants to be able to swim more than 25 meters this day.

"Yes."

Awashima says a few words to her.

When Anna asks why she is here...

"I come here every two weeks to train. Swimming is excellent for improving endurance and oxygen consumption."

The stoic response returned.

By the way, she has a perfect swimsuit for swimming.

"I see."

She has her original personality, but Anna no longer speaks. Awashima finds no special meaning when talking to the key figures of the red clan. And on both sides...

"Then, I'm going to train again."

"I also."

Once again, the red clan and the blue clan were of the same sex, but they could not get close to each other.

Awashima has started swimming brilliantly, and Anna has again started to flap in another lane. After a while, Anna worked hard and fluttered, but couldn't swim easily. When she got depressed and sighed, she probably wouldn't have seen her.

Awashima, who was next to Anna, said:

"Would you like me to teach you how to swim?"

After a moment, Anna smiled and replied.

"Thank you."

Two weeks later, Anna Kushina successfully swam to the offshore playground facilities with Homra members.

Awashima's "Noshi", an ancient style of swimming that originated in Japan, is effective in an emergency.

The appearance of a beautiful doll-like girl, swimming in a dignified and ancient swimming style, is said to have attracted people's attention.
